ORGANIZES JOBS – IMPROVES QUALITY CONTROL - SAVES LABOR

## ORGANIZES JOBS

**SPEEDlabel®** organizes the parts of each job within your shop

- ✓ Use SPEEDsnip® (included) to create individual parts from your countertop drawing
- ✓ Parts are automatically named and uploaded to the job within Moraware (i.e. Piece 1 of 7, Piece 2 of 7) or onto the SPEEDlabel url, specific for your company
- ✓ Customized label designs to choose from: top format, bottom format and edge format
- ✓ User-defined information automatically pulls from Moraware – eliminates data entry
- ✓ Quickly understand the identity of every part in the shop

## IMPROVES QUALITY CONTROL

**SPEEDlabel®** provides an individual part with dimensions and job-specific details

- ✓ Shop fabricators focus on one part at a time, not the entire job at once
- ✓ Quality control signature box adds accountability per piece
- ✓ Customize data fields allow pertinent job information (i.e. material color, install date, edge profile)

## SAVES LABOR BY SIMPLIFYING

**SPEEDlabel®** reduces the amount of time spent tagging and tracking parts of a job

- ✓ Eliminate need for printing a job specification sheet (i.e. Moraware form) – shop becomes paperless
- ✓ Eliminates the need for the CAD drawing/Shop Ticket – shop becomes paperless
- ✓ Eliminates the need to hand write anything on the actual parts – less time and less mistakes
- ✓ Edge labels allow for identification of parts when job is complete (i.e. A frame, finished goods areas)
- ✓ Allows for easy identification of parts in the shop

## ALL IN ONE KIT – START USING IMMEDIATELY

**SPEEDlabel®** provides everything you need to start printing labels and saving money

- ✓ We send you a color laser label printer with automatic cutter for use with continuous label rolls (print face and edge labels at the same time)
- ✓ We customized labels that are tear & water proof, with specially formulated adhesive to stick to the counter tops in a harsh manufacturing environment, yet come off with ease at the time of installation
- ✓ We send you labels (and ink) so you can start printing right away and auto-ship replacement labels each month, so you do not have to worry about reordering

Visit [www.speedlabel.net](http://www.speedlabel.net) to see how you can start saving immediately!
