

FOR IMMEDIATE RELEASE

ISFA Opens Submissions for 2025 Awards Honoring Excellence in Surface Fabrication

INGOMAR, PA — June 9, 2025 — The International Surface Fabricators Association (ISFA) is now accepting submissions for the 2025 ISFA Awards, its annual program celebrating outstanding achievement in design, fabrication, and installation of surfacing materials. Entries will be accepted through **July 31, 2025**, with winners announced at the **ISFA Annual Conference**, taking place **November 4–6, 2025**.

The ISFA Awards recognize excellence across seven categories, honoring exceptional commercial and residential projects of various scales, sustainability-driven designs, and individual accomplishments within the surface fabrication industry. Categories include:

- **Commercial Excellence** – Projects under and over \$100K
- **Residential Excellence** – Projects under and over \$20K
- **Sustainable Project of the Year**
- **Fabricator of the Year**
- **ISFA Hall of Fame Inductee**

“These awards represent the highest level of craftsmanship and innovation in the surfacing industry,” said Marissa Bankert, ISFA CEO. *“Whether it’s an environmentally conscious installation or a complex commercial project, we are proud to recognize those who push our industry forward.”*

Award winners will receive:

- A complimentary pass to the ISFA Annual Conference (valued at up to \$1,000)
- A personalized plaque
- Extensive promotion through ISFA's website, social media platforms, and *Countertops & Architectural Surfaces* magazine
- Access to exclusive digital assets for self-promotion

Submission requirements:

Entries must include a project summary, list of materials used, detailed project descriptions, high-quality images, and photo captions. Nominations for individual awards should describe how the nominee embodies ISFA’s core values: quality, innovation, character, and service to the industry.

The awards program is open to all ISFA fabricator members and associate partner members may nominate fabricators. Eligible projects must have been completed within two years prior to the submission deadline. All entries must be submitted electronically at www.ISFAnow.org/isfa-awards.

For media inquiries or award-related questions, contact awards@isfanow.org.

About ISFA

The International Surface Fabricators Association (ISFA) exists to support surface fabricators in growing their businesses, connecting with industry peers, and advancing fabrication excellence. Learn more at www.ISFAnow.org.
